## NOTES

The aim of this publication is to provide the user with a selected range of the latest statistics available at the end of each month of issue. Consequently the dates and periods shown are not always the same for each table but are in each case the latest figures available at that time.

As a general rule footnotes do not appear in this publication.

**Seasonal adjustment**

2. Seasonal adjustment is a means of removing the estimated effects of normal seasonal variations from economic time series so that the effects of other influences are more obvious. Seasonal variations are the systematic (though not necessarily regular) intra-year movements of economic time series. These are often the result of non-economic phenomena, such as climatic changes and regular religious festivals (e.g. Christmas and Easter).

**ABS publications**

3. Current publications issued by the ABS are listed in the Catalogue of Publications, Australia (1101.0), which is available free of charge from any ABS Office.

**Unpublished statistics**

4. In some cases the ABS can also make available information which is not published. This information may be made available in one or more of the following forms: microfiche, photocopy, data tape, computer printout, manually extracted tabulation. Generally a charge is made for providing unpublished information.

**ABS Electronic data**

5. A wide range of data is available electronically.

**DISCOVERY**

The ABS intends discontinuing its statistical information services on DISCOVERY. Please contact Peter Davidson (Phone 06 252 6684) to discuss possible alternatives for acquiring statistics or if you wish to comment on this proposal.

**PC-TELESTATS**

This service delivers major economic indicator publications ready to download to your computer on the day of release. Phone (06) 252 5404.

**PC-AUSSTATS**

Thousands of up-to-date time series are available on **PC-AUSSTATS**. Phone (03) 615 7769.

**CDATA91**

CDATA91 is a CD-ROM (Compact Disc - Read Only Memory) product which allows desktop analysis of 1991 Population Census data for small areas. CDATA91 enables users to select data and geographic areas and view this information as tables, maps or graphs, and link this Census information with other data.

For further information about CDATA91, phone (03) 615 7000 and ask for Information Services.

**Recorded message services**

*Consumer Price Index  
National Accounts  
Balance of Payments  
Labour Force Estimates  
Average Weekly Earnings  
Estimated Resident Population*

**Symbols and other usages**

n.a. not available  
n.e.c. not elsewhere classified  
n.p. not available for publication but included in totals where applicable  
n.y.a. not yet available  
p preliminary - figure or series subject to revision  
r figure or series revised since previous issue  
.. not applicable  
- nil or rounded down to zero  
— break in continuity of series (where a line is drawn across a column between two consecutive figures)  
\* subject to sampling variability too high for most practical purposes

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.
